ABOUT US

Since its establishment in 2005, AL IMTEDAD Group has been at the forefront in delivering customized Extra-Low Voltage (ELV) systems to a diverse array of industries including Hospitality, Healthcare, Oil & Gas, Educational Institutions, and Commercial complexes.

We are specialized in the installation & maintenance of world class IPTV, SMATV, CCTV, ICT, AV systems, Digital Signage, and other ELV systems, ensuring utmost efficiency and reliability, yet being very budget friendly. Our services are available across UAE, Oman & Kingdom of Saudi Arabia.

Our experience over years encompasses our opportunity in working with prestigious landmark hotels, hospitals and other industry leaders in providing them with high-end IPTV systems and other state-of-the-art ELV systems in the region.

One Vision.
Smarter Connections.
Stronger Tomorrow.

OUR VALUES

Driven by our core values, we deliver intelligent, dependable & future-ready ELV solutions.

CLIENT FOCUS

We understand the uniqueness of each client & their operational requirements, and provide customized solutions with the latest technology to suit their needs & budget.

EXCELLENCE

Our attention to detail and commitment to quality ensure we deliver the most reliable ELV systems in the region.

EXPERTISE

Our team of qualified & well trained professionals deliver excellent at every stage – from consultation & design to installation, commissioning and ongoing maintenance and support.

RELIABILITY

We are committed to delivering seamless experiences backed by responsive and dependable customer service.

OUR SERVICES

IPTV

Delivering crystal-clear 4K entertainment with interactive features and a seamless viewing experience.

SMATV

Providing reliable satellite signal distribution for high-quality television across multiple systems.

DIGITAL SIGNAGE

Dynamic digital displays that deliver engaging content and powerful communication where it matters most.

ANNUAL MAINTENANCE CONTRACT

Comprehensive maintenance solutions to ensure optimal performance, reliability, and peace of mind.

NURSE CALLING SYSTEM

Reliable nurse call solutions that enhance patient safety, and enable faster assistance.

IPTV

Get our world class IPTV to greatly enhance your guest experience & increase your operational efficiency, forget not to mention the cost savings through simplified cable management, and seamless integration with other existing hotel systems.

Offer your guests benefits such as, a broader selection of channels, improved picture quality, features like, interactive menus, personalized recommendations, access to guest services, weather updates, local area information, and the ability to order services and amenities directly from the TV.

SMATV

Satellite Master Antenna Television (SMATV) merges broadcast signals from multiple satellite dishes and re-distributes them within the facility through a single coax cable distribution system.

This offers wide availability of channels from multiple satellites at each outlet instead of having to install multiple satellite dishes for each outlet.

These systems are extensively used in hotels, hospitals, residential buildings and facilities with multiple users like staff accommodation etc.

We offer a robust, high quality, cost effective, easy to maintain system at very economical prices and support the installation with our annual maintenance contract.

DIGITAL SIGNAGE

Engage. Inform. Inspire.

Digital signages are display screens used to showcase a wide range of content.

Communicate Effectively

You can now educate, inform or even entertain your audience with your customized content.

Dynamic & Interactive

Achieve your communication goals and deliver your messages through eye-catching large displays to interactive kiosks.

Create Impact. Drive Results.

Our digital signage solution empowers your business to create memorable and compelling experiences that help strengthen their interest on your promotions.

ANNUAL MAINTENANCE CONTRACT

Annual Maintenance Contract (AMC) acts as an insurance cover to your ELV systems as running of the system 24/7 without downtime is absolutely critical.

Our AMCs cover:

- ✓ Pre-defined preventive maintenance visits periodically to ensure the system is running perfectly.
- ✓ Technical support visits during natural calamities like sand storm, rain etc.
- ✓ Online support for IPTV / Servers / Digital Signage software.
- ✓ Contracts can be customized based on customer requirements and criticality.
